

P. L. C Application Equipment

WSP-1D Line to Line Feeder Trainer

- Main Voltage
 - 1 Phase AC 220~240V / 50/60HZ
- Digital Input & Output Connection Points
 - Input : 11 & Output : 6
- Air is necessary for operation
- Sensor Type : NPN Type
- Providing operation manual

※ P. L. C Controller is not included

WSP-1E Milling Process-Robot Trainer

- Main Voltage : DC 24V
- Digital Input & Output Connection Points
 - Input : 13 & Output : 6
- Air is necessary for operation
- Sensor Type : NPN Type
- Providing operation manual

※ P. L. C Controller is not included

※ All P. L. C application equipments can be controlled by all of PLC such as SIMENS, MITSUBISHI, LS, Allen-Bradley
